**Guest Speaker**

Joe Hauryski, County Legislator updated the Board on several issues.

The building project will start next week on the storage building on the farm site. After that week, the work on the office building will start. The state has mandated more space for the county courts, so the 3<sup>rd</sup> floor of the new building was a wise addition.

There has been a assessment data collection system put in place, based on the shared service plans. More info to come in the future.

The list of county road projects for this year has been announced. The whole of County Route 97 (West Waneta Lake Rd) is on the list.

Mr. Hauryski presented a flyer regarding the 211 information system. Some of the board members were aware of this information system. Clerk Mooney stated she'll post some of these flyers in her office.

Supervisor Butchko and Councilperson Haff asked Mr. Hauryski to look into the issue of subdivision acknowledgement at the county level. Subdivisions are made at the town level, and sent to the county. The county has not recognized these subdivisions or assigned tax parcel numbers. Our assessor cannot assess the properties until he has an assigned tax ID number on each property. Mr. Hauryski stated he will look into this.
